DETAILED ACTION

1. The Amendment and Petition for Time Extension filed by Applicant on 08/24/05 has been entered.

2. Claims 10-14 have been canceled.

3. New claims 15-24 have been added.

Response to Amendment/Arguments

4. Applicant's amendment and arguments filed on 08/24/05 have been fully considered and they are found persuasive.

5. The rejection of claim 1 and 11-14 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention is withdrawn.

6. The rejection of claims 1-14 under 35 U.S.C. 102(e) as being anticipated by Kiessling et al., U.S. Patent No. 6,271,315 (hereinafter "Kiessling") is withdrawn.

Art Unit: 1713

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

8. Claims 1-9 and 15-24 are rejected under 35 U.S.C. 102(a) as being anticipated by Anseth et al., U.S. Patent No. 5,902,599 (hereinafter "Anseth").

9. The claims are interpreted as broadly as possibly. It appears that the Applicant is seeking to patent all polymeric networks that have a fixed confirmation. The Applicants does not state what type of polymer or template compound is required to practice the invention. The Examiner will assume any compound that engages in molecularly bonding with a polymer will suffice. Anseth teaches biodegradable polymer networks which are useful in a variety of dental applications. Anseth teaches polymer networks prepared from polymers of mixed anhydride functionalized monomers and the subsequent cross-linking with MCPH (template compound). See Anseth, col. 4, line 29 through col. 5, line 25.

Conclusion

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

11. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
